Examples of social media posts surrounding the release of TRIP’s 2019 America’s Rolling Warehouses: Opportunities and Challenges with the Nation's Freight Delivery System
Traffic around the D.C. region is getting worse and worse, so it takes people longer to get from place to place. In turn, that costs locals not just in lost time, but also in wasted gasoline that burns off idling in traffic. And it’s also costing the area in other ways, too.
