TRIP Releases Report on the State of Rural Roads

Kentucky fatalities rank third highest in the nation

Washington, D.C. – America’s rural transportation system is in need of repairs and modernization to support economic growth and improve traffic safety in the nation’s Heartland, but the US faces a $211 billion backlog in funding for needed repairs and improvements to the rural transportation system. This is according to a new report released today by TRIP, a national transportation research nonprofit. The report, Rural Connections: Challenges and Opportunities in America’s Heartland, evaluates the safety and condition of the nation’s rural roads and bridges and finds that America’s rural transportation system is in need of immediate improvements to address deficient roads and bridges, high crash rates, and inadequate connectivity and capacity.

Report: Rural roads, bridges expect to see decreased funding despite $211B backlog

FEATURED
BY LIZ CAREY | MAY 12, 2020

A new report from TRIP, a national transportation research nonprofit in Washington, D.C., estimates that rural roads and bridges face a backlog of improvements, but could see a decrease in funding due to the COVID-19 outbreak. The report, “Rural Connections: Challenges and Opportunities in America’s Heartland,” looks at the condition and safety of U.S. rural roads and bridges. According to the report, the rural road transportation system faces a $211 billion backlog in needed improvements...
