"Traffic crashes in New Mexico imposed a total of \$2.5 billion in economic costs in 2021. TRIP estimates that roadway features...were likely a contributing factor in approximately one-third of all fatal traffic crashes"

1/3rd seems low, wish @TRIP_Inc had more analysis

The efficiency of New Mexico's transportation system, particularly its highways, is critical to the state's economy. @TRIP_Inc report says \$125 billion in goods are shipped to and from sites in New Mexico each year, mostly by truck #FixMyRoadsNM ow.ly/GfTC50MTeJ1 pic.twitter.com/no61GN1BNn
